

## Baystate Organic Certifiers

### USCOEA Compliance Affidavit

Products certified to the USDA National Organic Program standards are may be sold as organic in Canada, provided that all of the certified ingredients comply with the terms of the US-Canada Organic Equivalency Arrangement (USCOEA).

**Purpose:** If a product/ingredient is not already certified to the terms of the USCOEA, this form can be submitted by the certified organic supplier (producer or manufacturer) to attest that its product qualifies to be used as an ingredient in an organic product eligible for export to Canada.

**Name of certified supplier:** \_\_\_\_\_

**Name of supplier's organic certification agency:** \_\_\_\_\_

I, (Authorized representative of the certified supplier), \_\_\_\_\_,

attest that the following ingredients/products, produced or made under our organic certification, were to the best of my knowledge produced without the use of sodium nitrate fertilizer or hydroponics. If such products involve the use of certified livestock products (of non-ruminant origin), I further attest that these products were produced according to livestock stocking rates as set out in CAN /CGSB32.310-2006 of the Canadian Organic Regime.
