Organic Product Profile

Company Name:	**Date**	**Brand/Product Name:**	**% Org. Ingredients[1]**

Check what organic LABELING CLAIM you will make on the product label or packaging. *Attach copy of label.*

☐ "100% organic" ☐ "Organic" (must be ≥95% organic ingredients) ☐ "Made With Organic (ingredients or food group(s))" (must be ≥70% organic ingredients)

Product Composition: Complete the information for all ingredients contained in this product. Although water and salt are not considered when determining the percentage of ingredients in the product, if water and salt are ingredients in your product they must be listed below.

INGREDIENT[2] (INCLUDE ADDITIVES)	IS THE INGREDIENT CERTIFIED ORGANIC? (YES OR NO)	INGREDIENT SOURCE (THE CERTIFIED ORGANIC PRODUCER OR DISTRIBUTOR. IF DISTRIBUTOR ISN'T CERTIFIED, LIST BOTH DISTRIBUTOR AND CERTIFIED PRODUCER)	CERTIFYING AGENT OF THE INGREDIENT, IF APPLICABLE	IF NON- AGRICULTURAL, IS INGREDIENT LISTED IN SECTION 205.605 OF THE STANDARDS? (YES OR NO)	IF THE INGREDIENT IS NONORGANIC, DO YOU HAVE DOCUMENTATION THAT IT WAS NOT PRODUCED USING ANY OF THE FOLLOWING? (YES OR NO): EXCLUDED METHODS[3]	SEWAGE SLUDGE	IONIZING RADIATION	IF THIS IS A NON-ORGANIC AGRICULTURAL INGREDIENT, HAVE YOU DOCUMENTED THAT IT ISN'T COMMERCIALLY AVAILABLE[4] AS ORGANIC? (YES OR NO)	% OF FINISHED PRODUCT (EXCLUDE WATER AND SALT)

Does this product include organic and nonorganic forms of the same ingredient?[5] ☐ Yes ☐ No If Yes, list them:

Processing Aids: List all processing aids used in the manufacture of this product. See NOP 205.102 for definition of "processing aid". ☐ No Processing Aids Used

PROCESSING AID	IS PROCESSING AID CERTIFIED 100% ORGANIC[6] (YES OR NO)	IF NONORGANIC, IS PROCESSING AID LISTED IN SECTION 205.606 OF THE STANDARDS? (YES OR NO)	SUPPLIER	CERTIFYING AGENT, IF APPLICABLE

[1] Calculate the percentage of organic ingredients by dividing the total net weight or volume of combined organic ingredients (excluding water and salt) by the total weight or volume of all ingredients (excluding water and salt). See section 205.302 of the standards.

[2] All "100% organic" or "organic" products and ingredients must not be produced using: excluded methods; sewage sludge; ionizing radiation; a processing aid not on the National List; or sulfites, nitrates or nitrites added during the production or handling process (except that wine containing added sulfites may be labeled "made with organic grapes").

[3] Excluded methods include cell fusion, microencapsulation and macroencapsulation, and recombinant DNA technology, (gene deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when achieved by recombinant DNA technology).

[4] For products labeled as "100% organic" and "organic", handlers are required to source organic ingredients when commercially available. Commercial availability is determined by three factors: appropriate form, quality, or quantity. This is <u>not</u> required for products labeled as "made with organic…..".

[5] Products labeled "organic" or "made with…" must not include organic and nonorganic forms of the same ingredient, except that a nonorganic ingredient in a product labeled "made with…" may contain organic and nonorganic forms of the same sub-ingredient. This ingredient must not be labeled "organic" on the ingredient statement or be counted in the calculation of the product's organic %.

[6] Required for products labeled as "100% organic".
