

History Affidavit for New Fields, Pastures and In-Ground Production Greenhouses

Complete this form for every new field, pasture and in-ground production greenhouse to be certified. Multiple fields may be listed on one page, if they are at the same address. Fields from separate locations will need separate forms to include their addresses. **Each signature block needs to be completed for all previous 3 years by the person who managed it that year.** You may substitute signed letters from past managers or other documentation if your documentation contains the same information as this form. With these signatures, you are attesting that these inputs were the only substances applied and that nothing prohibited by the NOP Standards was applied.

Note: List the specific date of the last prohibited input, if applicable.

205.201, 205.203
